### TRIBUTE TO J. C. GLADDEN.

Our hearts were saddened when we learned that our friend J. Coleman Gladden had departed from us. When it was first learned that he had influenza many friends were anxious about him and then when pneumonia developed, it was not long until we learned, with saddened hearts, that our friend was no more. He was kind and a very striking thing about him was the way in which he endured suffering.

The funeral services were conducted at the home Sunday, January 26th, by Rev. J. G. Roper, Rev. C. C. Herbert and Rev. L. M. White and he was buried with Knights of Pythias honors in Evergreen cemetery.

The floral tributes were numerous and lovely and showed the high esteem in which he was held by friends. He was thirty-three years of age and had been in the employ of the Southern Railway Company for several years, but recently had been with Swift & Company.

He is survived by his mother, Mrs. Laura T. Gladden, and the following brothers and sisters: Wade Gladden, of the American Expeditionary Forces in France, Edward Gladden and Misses Maggie, Clara, Eva, Bessie and Rose Gladden and Mrs. Belle Anderson, all of Chester; also by the following half-brothers and sister: Mr. W. B. Gladden, of Richburg, Mr. C. H. Gladden and Mrs. J. G. Howze, of Chester.

### Coal Cheaper Than Wood.

Almost every one living in Chester is acquainted with the fact that it is a hard matter to get good dry stove wood, and besides the price per load is now \$4.00.

The matter was being discussed by a number of men, just standing around, a few days ago, and one of them stated that he had stopped using wood for cooking purposes since the war had ended. He stated that the only reason why he used wood in the past was because the government wanted every one to conserve every pound of coal possible. He further stated that coal was considerably cheaper than wood and had the figures to back up his statement. According to a record kept by him he found that stove wood for cooking purposes cost him \$4.25 each month. Coal for the same purpose cost him \$2.50, or \$1.75 less than the cost of the wood.

We have also heard several other people state recently that they had again begun using coal for cooking purposes instead of wood, not only because it is cheaper but also because it is less trouble to get.

### Dies Suddenly In Church.

Mr. Dixon was 60 years old, was educated at Eakin College, Due West, S. C., and in Theological Seminary, Richmond, Va., and had held pastorates in the Carolinas.

### Nick Longworth Kicks on Money.

Washington, Jan. 11.—Expenditure by the war department of \$14,000 for the construction of a dam at Muscle, Ala., to furnish waterpower for the nitrate plant there was characterized as a "criminal waste of the public's money" by Representative Longworth of Ohio in the house today. He served notice he later would take up the subject in detail and demand that an investigation of the project be made.

### RULES AS TO INFLUENZA.

The following is the rules of the City Board of Health in connection with the influenza epidemic:

We consider influenza a disease which should be classed with other contagious diseases and more deadly than either scarlet fever or diphtheria, therefore, a strict quarantine was authorized to be placed on each home where there is a case, the same to be maintained until quarantine is lifted. When a case develops in a hotel or boarding house the room in which the case develops will be kept under strict quarantine.

Each physician is required to report at once every case he now has or may have in the future to the City Clerk or Health Officer of the city.

The Superintendent of public schools is required to instruct his teachers to be on the watch for indications and send at once all suspected cases home, they to remain until they return with a doctor's certificate of good health.

Managers of all picture shows are requested to place a sign before the entrance to their theatres warning people with colds and coughs to stay out, and where there is continuous coughing or sneezing on part of any individual the managers are expected to tell such persons to retire, refusing the value of the tickets.

All pastors of the churches are requested to warn the people in reference to the danger of influenza, urging the use of the proper precautions to aid the epidemic, making the same request of every member of the audience as the picture managers have been requested to do with reference to continuous coughing and sneezing.

The proprietors of all stores and places of business are requested to send any of their employees home immediately upon showing evidence of being sick and not allow them to serve the public until well.

All places serving drinks and cream are required to use sanitary cups and receptacles and will be expected to at once provide themselves with the necessary means of sterilizing the vessels used in serving the public.

Every one is requested not to cough or spit without the use of a handkerchief, also everybody is encouraged to use a mild antiseptic spray twice a day.

### TEACHERS' EXAMINATION.

An extra teachers' examination will be held in Court House Saturday, January 18, 1919 to enable any teacher or prospective teacher to obtain a certificate. Diplomas are not certificates, and do not authorize their holders to take charge of a school. Every teacher should have a valid certificate recorded in the office of the County Superintendent of Education.

Please do not present a pay certificate after January 18th, for approval unless you have a valid teachers' certificate recorded in the office of County Superintendent of Education. Trustees have no right to employ you unless you hold a valid certificate.

Diplomas and certificates from other States cannot be accepted by any County Board. These must be passed upon by the State Board of Education.

Teachers please attend to this matter, I rely upon the Boards of Trustees to assist under the law.

J. K. K. County Superintendent of Education.

### OF INTEREST TO GIRLS.

The following article from a recent issue of the Washington Post will doubtless be of interest to a number of American girls who have "friends" overseas.

"While the American doughboys in France were given a good time and enjoyed the hospitality of the French, they didn't lose their heads over the French girls, and there was not so many of them remaining on the other side, or bringing back French brides to American shores," observed S. O. Holy, Knight of Columbus secretary at the Raleigh. "I saw many of our boys in company of the French girls, and the young women certainly appeared to be happy in the company of the Americans, yet there were few of the fellows in my knowledge who were serious in their attentions. All of them remembered the girls back home and were more anxious to get back here to see their sweethearts than they were to stay over there. Most of our soldiers agreed to their while they liked the French people and France, America is a pretty good country, and the American girl the superior of all."

"The French girls, I may say, were more popular with the American boys than were the English. Indeed, it is hardly fair to compare the reception given the Americans by the French and that accorded them by the English. Our men were not in England long enough to get a time to give our British cousins opportunity to show their cordiality. But wherever there was opportunity the English did their best to make the American comfortable and at home. The Scotch were the most cordial in their welcome of the Americans. And incidentally the Scotch were about the most aggressive fighters in

the British army. They didn't take many prisoners, and the kochs feared the scotchman even more than they feared the Canadians."

## In the Name of Pity—Give!

Oh, America of the great heart, the cry of the stricken peoples of the Near East is heard at your door.

You have been so close to us through all the years of our struggles toward the light. Your hands outstretched to us have never been empty.

AND now we cry to you from the depths of a greater need than even our torn souls have ever known. In the name of pity—do not fail us!

There has been cruel suffering in our lands, massacre, famine, death. But the spirit of our people still lives, and calls to you across the sea to send help lest we perish.

Our God is your God, and we bare our souls for your searching eyes that you may see how we have never denied Him, nor

shamed Him. When our world rocked in misery about us, in our torn and tortured bodies our hearts still cradled and sheltered the crucified Christ. We held true in our allegiance to God and humanity.

The people of the Near East are old in suffering. The way we have traveled has been Via Dolorosa, the way of tears and blood. And now—we are so low in the dust that only your young, unshattered strength can raise us.

Every dollar subscribed goes to the Relief Work. All expenses are privately met.

All funds are pooled through the Department of State.

All funds are distributed through U. S. Consuls or American Agencies.

Our Government is prevented from giving aid.

The Red Cross is not organized for Relief Work in these sections.

*This Space Contributed by*

Around the world the news has gone, is ringing today clarion-clear, that America's men and America's women have never yet been called upon in vain to right a wrong, to protect the weak, to succor the defenseless. We cry to you, help us—America! We are Armenian, Syrian, Greek, Jew, and we speak strange tongues, but our need of you is so great. What is left of our children are starving. What is left of our men and women, young men and maidens, are without work, without shelter, without clothing, racked with disease. Open your great hearts and give, and our people will pay. In the years to come, how they will pay in return! You, who are so safe and strong beyond the reach of such misery as ours, open your heart to our cry.

17c a day—\$5 a month—\$60 a year will buy life for one of us.

In the name of pity—give!
